

# **WORKSHOP OF EXCHANGE OF EXPERIENCES / DIGITAL SOCIETY**

**Curaçao, March 7, 2019**

# SOME EXPERIENCES OF REPORTS OF CES-IS ON DIGITAL ECONOMY

## THEMES OF THE REPORTS OF THE CES-IS

- Digitalization of the economy.
- The future of employment.
- The social model in technological mutations.
- Digital impact on working conditions.
- Job Training.
- Digitization and collaborative economy.
- Circular economy.
- Energy transition and employment.
- Tourism and digitalization.
- Innovation in agriculture.
- E Governance.

# SOME EXPERIENCES OF REPORTS OF CES-IS ON DIGITAL ECONOMY

## CHARACTERISTICS OF THE REPORTS

- The digital theme appears frequently.
- Very important presence of analysis of the effects on employment and working conditions.
- A permanent theme: the adaptation of educational systems.
- A debate parallel to the future of work and the energy transition.
- A debate parallel to the evolution of economic activity: circular economy, collaborative economy...
- Also sectoral analyzes.
- Analysis beyond socio-economic: impact of digitalization on the activity of Public Administrations.

## A REFLECTION FROM THE PERSPECTIVE OF AICESIS

- An example of the possibilities of the exchange of experiences in AICESIS.
- An example of a "horizontal" theme that can appear on a variety of topics.
- AICESIS added value: there is already a considerable amount of information on the work and criteria of the CES-IS. Now is the time to systematize and disseminate.
